

Fr. Fuldeo Soreng, S.J.
Vice Principal

I am really very excited to go to Belgium the soil from where the Catholic Missionaries came to India and worked in Bengal Mission and later in Chotanagpur. They started educating thousands and thousands of people of the present Jharkhand. I am looking forward to go and see Belgium that gave many educationists who tirelessly served the humanity and imparted knowledge to the people of present Jharkhand and Chhattisgarh.

It is my pleasure to accompany the students who are full of excitement and energy to take part in the International Exchange Programme. It is going to be an eye opening opportunity for me. I hope to learn as much as possible from the people I meet and live with. I also want to give them what I have and learn much from them.

I thank the management of St. Xavier's School Doranda, Ranchi for trusting me and giving me this opportunity to participate in the International Exchange Programme to Belgium and learn for life.
