“At the time of one’s birth it is our parents who give us our names. The names they select are most meaningful and very precious. Our parents have no agenda other than help grow and become useful to their children. We are born out of Love, born into love and frankly we all are precious beings and are nothing but love. It is He who makes us (in His image,) and Him being all LOVE, how can we be anything less than that?

There was a reason why your parents named you *HIRA*. And now looking back at your life and how you have lived it, and cultivated your time at Xavier’s it is apparent that you lived the life of a perfect Hira or diamond. Diamonds are precious and extremely rare. “(A Tribute expressed by his Pupil)

He was not only a great teacher but a great human being whose immense knowledge transfer has given this country innumerable entrepreneur /scholars/ doctors/ engineers and human beings who have excelled in all spheres of life. He has been the guiding light of thousands of the students.
